- Payroll
- Time and Attendance
- Fixed Assets
- General Ledger
- Additional Services

ONLINE's MasterTools 9 software is intended for use by the following industries:

- Manufacturing
- Wholesale Distribution (durable goods)
- Job Control / Contracting

MasterTools 9 software combines all aspects of accounting, production planning, shop floor control, inventory control, job control, financial analysis, and report writing into a single world-class ERP system.

MasterTools 9 modules can work independently installed or together as a fully integrated and real-time enterprise solution.

ONLINE Computing was established in 1969 and is willing to accept sub-distributors for MasterTools Software in any English-speaking country.
