SIMCO has been an Authorized LINX System Solution Provider since 1987. We specialize in providing a proven application and a high level of system integration services for the following application:

- **Time and Attendance**

SIMCO's Time and Labor Collection (TLC) system provides accurate and automatic means of collecting, verifying, and costing time and labor. Additional features include, meal and tip accounting, and project and equipment cost calculation. TLC may be coupled with payroll, human resources, and job costing packages or with a service bureau, providing a completely integrated system. Our system has been interfaced with PeopleSoft Payroll, ADP Payroll & HR, Ceridian Payroll, and Compushare Payroll & HR. System documentation is available in printed form, independently on CD-ROM and as a part of system deliverables on CD-ROM.

We are focused upon and experienced in serving the following industries:

- **Manufacturing, Electronics and Electrical**
- **Wholesale Distribution**
